EXPERIENCE

- FULL STACK & ZOHO DEVELOPER | TEAM LEAD** **November 2024 – Present**
Bhavatah Soft Tech LLP
- Worked extensively across Zoho’s ecosystem, including Zoho CRM, Creator, Catalyst, Flow, Sign, Writer, and more, delivering tailored business solutions and automation.
 - Troubleshoot and resolved critical live project issues, ensuring seamless functionality, system stability, and high client satisfaction.
 - Implemented full-stack payment integration using Plaid, Node.js, Express, React, and Zoho, covering secure bank linking, token management, and automated end-to-end payment workflows.
 - Developed and deployed multiple React-based UI designs, creating modern, responsive, and user-friendly interfaces for various projects.
 - Built and launched a fully functional, responsive company website, deployed on hosting platforms with a focus on performance, design, and accessibility.
 - Developed numerous custom APIs with Node.js and Express, aligned to project-specific requirements, boosting system efficiency and flexibility.
 - Automated key business processes by designing custom buttons, workflows, scheduled functions, and robust validation rules within Zoho CRM and Creator.
 - Led and managed a team of 4 members, providing comprehensive training and mentoring, successfully deploying them into client projects to ensure high-quality deliverables and team growth
